KHIN MYAT NOE

Frontend developer

PERSONAL STATEMENT

Highly motivated computer science student with a strong foundation in frontend development (HTML, CSS, JavaScript with React libraries) and ongoing studies in backend development (PHP, Laravel). Seeking a junior developer position to leverage my skills in building user-friendly and interactive web applications.

EXPERTISE

- HTML5 & CSS3 (Advanced)
- Tailwind CSS (Intermediate)
- JavaScript (Advanced)
- Strong foundation in DOM manipulation and event handling
- Experience with asynchronous programming
- React & React Router (Intermediate)
- Proficient in component development and state management with Redux Toolkit
- Experience building dynamic and reusable UI components
- RESTful APIs & RTK Query (Intermediate)
- Comfortable fetching and manipulating data from APIs
- MySQL (Beginner)
- Vite (Intermediate)
- Git & GitHub (Intermediate)
- Experience with version control and collaboration workflows
- Developed interactive dashboards using React, Redux Toolkit, and Tailwind CSS.

Frontend development

- Frontend Development Certification (Specialization: Web Design)
- Skills Learned: HTML, CSS, JavaScript, react and related libraries

AI with Python

I took AI related courses- Foundation of Python for AI, Introduction to AI and Mathematics Fundamental for AI. My team did computer vision project that can detect molar teeth from dental X rays.

University of the People (UoPeople) (September 2023 - Expected Graduation February 2025)

II started learning Bachelor degree of computer science to expand my IT knowledge last year. My expected graduation date is the 2025 February. My major is based on JAVA language and python together with databases, related Mathematics courses, algorithms and data structures.

Practical Projects (December 2023 - Present)

Group projects undertaken to develop UI development skills and explore various front-end technologies.

Dashboard Theme (https://dashboard-theme-lemon.vercel.app/)

A customizable dashboard UI built with React, Tailwind CSS, and various component libraries. I focused on creating interactive charts and efficient data visualization components.

Hotel Booking Themes (https://grandium.vercel.app/,

https://silly-starburst-bb5582.netlify.app/)

Developed user-friendly interfaces for hotel booking websites using HTML, CSS, JavaScript, and Tailwind CSS. Collaborated with teammates to ensure responsive design and a smooth user experience across different devices.

EXPERIENCE

QA/QC intern (Remote)
Feb 2023- May 2023

Analyzed chatbot functionality and fixed errors using Python scripting, resulting in a significant performance improvement from 39% to 53% accuracy as my impacts and results. Responsibilities included identifying incorrect chatbot responses to user intents, fixing bugs, and ensuring proper data collection and organization. Received positive feedback from seniors and team lead for the contributions made and for being fast learner and hardworking intern

SKILLS

- Team collaboration
- Learning Agility
- Attention to Detail
- Time Management
